SUBJECT: SECURITY INDEX - TO ALL

The Security Index (SI) Special Section contains the names of 17 inivilvals employed by the U.S. Government. Each of these individuals, in addition to being the subject of a security investing gation, has also been investigated under Executive Order 10450 and the results of that investigation furnished to the Department and to the Civil Service Commission (USC). CSC passes on our Security of Government Employee reports to the employing agency. In addition, the fact of Government employment in each case has been specifically called to the attention of the Deputy Attorney General and the Internal Security Division. The Department is committed to review cases in this category from an SI standpoint and has approved inclusion in the

The identities of these individuals, basis for inclusion of their names in the SI, and places of employment follow:

The remaining 16 individuals are included in the Security Index based on their activities in the Nition of Islam. Each is either a leader in this organization or is a very active participant in the affairs thereof. The Department has advised that this antiwhite and affairs thereof. The Department constitutes a potentially dangerous anti-U.S. Tovernment organization constitutes a potentially dangerous instrumentality in the event of a national emergency.

Nine of the individuals are employees of the Post Office Department. They are:

Also contained in the Special Section of the SI are the names of three employees of the United Nations (UN). These individuals likewise have been the subjects of Loyalty of Employees of UN investigations, the results of which have been disseminated to the Department and to the CSC. The reports are considered by the UN Loyalty Board and a summary of its decision thereon is furnished to State Department which passes it on to the employing agency. The employing agency has the responsibility for determination as to the retention of the individual. These cases likewise have been specifically approved by the Department for retention in the SI. The individuals involved are:

SUBJECTION IN SECURITY INVESTIGATIONS

SYNOPSIS:

SELURITY TOUTA- CENT

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications of, 100 and 105. Status of these cases as of March 31, 1959, is set forth below:

In March, there was a decrease in pending active matters in the entire field in the security classifications from 19,2925-, to 18,814. Delinquent matters decreased from 2,371 to 2,224. The percentage of delinquent matters decreased from 12.3% to 11.8%. Matters received during March in these categories increased from 8,211 to 9,213. Matters closed increased from 7,893 to 9,742.

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the April, 1959, administrative reports.

- 1/1

Memorandum for Mr.

Re: DELINQUENCY IN SECURITY CLASSIFICATIONS
100-358086

DETAILS:

The March, 1959, administrative reports from all offices reflect that the total pending active matters in classifications 65, 100 and 105 decreased from 19,292 to 18,814. Delinquent items decreased from 2,371 to 2,224. The percentage of delinquent items decreased from 12.3% to 11.8%. Matters received during March in these categories increased from 8,211 to 9,213. Matters closed increased from 7,893 to 9,742.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions for the last four months.

Office Memorandum • United States Government

DATE: April 21) 1959

FROM :

TO

SUBJECT: SECURITY INDEX -

We forward to the field quarterly an alphabetical list of each office's Security Index in order that the Security Index cards maintained in the field may be checked and reconciled with Rureau records.

There is attached a proposed letter to all field offices containing appropriate instructions regarding the handling of the list.

RECOMMENDATION:

It is recommended that the attached letter be approved and forwarded.

Office Memorandum , united states government

DATE: April 24, 1959

FROM :

SUBJECT: SECURITY INDEX - JUNIOR

During the past week, 5 cards were added to the Security Index and 19 cards were cancelled, a net decrease of 14 cards.

The Security Index count as of today is

12,783.

ACTION:

None. For your information.

SUBJECT: SECURITY INDEX LISTS

Enclosed herewith is one copy each of the following lists for transmittal to the SAC, Quantico, for storage with other vital records maintained by him:

- 1) Alphabetical list of Security Index (SI) subjects.
- 2) Geographical list of SI subjects.
- 3) Special Section of the SI.
- 4) List of key figures and top functionaries.
- List of SI subjects out of the country.
- List of missing SI subjects.
- List of subjects whose citizenship status 18 unknown.
- List of aliens.
- List of SI subjects of Chinese descent.
- List of SI subjects sympathetic to communist 10) China.

The SAC should destroy by burning the lists furnished in March, 1959. When this action has been taken, he should so note on this memorandum and return it to the Subversive Control Section.

ACTION:

If you approve, this memorandum and the attached lists will be forwarded to Quantico for the above action.

During the above-mentioned period, there was a net decrease in the Security Index of 14.

four-week period, 68 cards were added and 73 cards were cancelled, a net decrease of 5.

The Security Index count as of today is 12,770.

ACTION:

This is for your information.

Office Memorandum .. UNITED STATES GOVERNMENT

DATE: April 29, 1959

PROM

SUBJECT: COMMUNIST INDEX

field to re-examine cases of all individuals whose names are included in the Communist Index (CI), this re-examination to be conducted in equal monthly installments over a twelve-month period. The CI is designed to represent a list of individuals who should, in the light of ever-changing conditions, be continually borne in mind with a view toward possible investigation under the Security Index Program.

The field was instructed to submit certain statistics in connection with the program on a quarterly basis. Reports received from the field offices for the period 1-15 to 4-15-59 have been reviewed and they show the following statistical results:

1. The names of 30 individuals have been added to the Security Index based on investigations conducted over this period. (During the period ending 1-15-59 11 individuals were so added)

2. The field has under development 15 security informants or potential security informants. (For the period enaing 1-15-59

this figure was 4)
3. Sixty-three individuals were found to be employed in sensitive positions requiring additional investigation or dissemination on our part. (For the period ending 1-15-59 this figure was 14)

At the inception of the program, 17,783 names were included in the CI. Reviews conducted during the period 1-15-59 to 4-15-59 resulted in the purging of the names of 1,285 individuals from the CI. (This figure for the period ending 1-15-59 was 825) It has been ascertained that these individuals are either deceased, their names returned to the Security Index, or otherwise do not qualify for inclusion in the CI. Continuation of the program and consequent further elimination of unqualified individuals from the CI will assure that the CI contains the names only of individuals to be properly included therein.

KILCONITY

Memorandum for Mr. Re: COMMUNIST INDEX

In addition to the statistical results reported above, other advantages have resulted from the program. Cooperative interviews have been obtained in some instances. Each case opened results in obtaining as a minimum current information as to residence and employment addresses of the subject and brings up to date our information concerning the subject's activity.

OBSERVATIONS:

The results being obtained from this program justify the time and effort necessarily involved in re-examination of the CI, which lists the individuals who, next to Security Index subjects, present the greatest potential threat to internal security.

ACTION:

We will continue to follow this program and you will be advised of the results obtained upon receipt of the next quarterly report from the field which is due 7-15-59.

SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases as of April 30, 1959, is set forth below:

In April, there was a decrease in pending active matters in the entire field in the security classifications from 18,814 to 18,747. Delinquent matters decreased from 2,224 to 1,927. The percentage of delinquent matters decreased from 11.8% to 10.3%. Matters received during April in these categories decreased from 9,213 to 8,842. Matters closed decreased from 9,742 to 8,880,

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the May, 1959, administrative reports.

Re: DELINQUENCY IN SECURITY CLASSIFICATIONS

DETAILS:

The April, 1959, administrative reports from all offices reflect that the total pending active matters in classifications reflect that the total penarry works matters in classifications 65, 100 and 105 decreased from 18,814 to 18,747. Delinquent items decreased from 2,224 to 1,927. The percentage of delinquent items decreased from 11.8% to 10.3%. Matters received during April decreased from 11.8% to 10.3%. Matters received during April -in-these categories decreased from 9,213 to 8,842. Matters closed decreased from 9,742 to 8,880.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions for the last four months.

PROM

SUBURITY INDEX - GOAL.

SUBJECT:

SECURITY INVESTIGATIONS OF INDIVIDUALS COMMUNIST INDEX

SYNOPSIS

BACKGROUND: By Bureau letter 10/2/58 all offices instructed to reexamine entire Communist index (CI) on individual case'
basis with disposition to be considered as (a) potential informant, (b)
espionage subject, (c) Security Index subject, (d) retention in CI, and
(e) removal from CL. Program involves 17,000 individuals, 4397 of whom
are in New York Division. Deadline of October 15, 1959, set.

DETAILS: New York inspection reflects that as of 4/10/59 office closed. 1660 cases, had 1064 pending and 1673 remained to be opened, for a completion of 38% of the program in the first six months.

Out of these cases no informants or potential informants have been developed, no espionage cases opened, and no subjects placed on Security Index as a result of program. Five subjects were found to be employed at key facilities or by classified contractors, four subjects required additional dissemination, 52 cases referred to other offices, 30 subjects found deceased; 26 subjects were not located and cases closed. To obtain these results, New York estimates office expended 2,735 agent workdays from inception of program to 3/31/59.

Assistant Director feels that value of program cannot be measured in terms of statistics. Program based on absolute necessity for Bureau to have intelligence information in subversive field. Reduction of program would reduce penetration of subversive field and cripple effectiveness in meeting threat.

On a field-wide basis, there have been 15 informants or potential informants developed, 30 subjects returned to Security Index, 50 found employed at key facilities, and 13 in other sensitive employments.

Inspector feels that neither statistics nor intangible factors realized justify expenditure of manpower in New York Office. Agents could be put to more productive use on other work such as identification of Communist Party (CP) members. Of current CP membership of 2282 persons, they

Memo for Mr.

Re: Security Investigations of Individuals -- Communist Index

New York Office has been able to positively identify only 1059 and tentatively identify 43 more.

RECOMMENDATION:

That revised Communist Index Program in New York be discontinued and the manpower utilized be reassigned to more productive security work.

ADDENDUM (QT:mas) The Executives Conference of 5/13/59, consisting of Messrs.

that this program not be discontinued but continued to operate in the New York Field Division until its completion.

SEE NEXT PAGE

Memo for Mr.

Re: Security Investigations of Individuals -- Communist Index

DETAILS

A Communist Index (CI) is maintained in each field office representing those persons who, in the light of ever changing conditions, should be continually borne in mind from the standpoint of the security of the country with a view to possible investintion, interrogation, or action under the Security Index (SI) Program. The CI serves as a repository of names of individuals having sympathy for or affiliation with the Communist Party or other basic revolutionary group but insufficient justification for inclusion in SI.

The CI has been used extensively as a source of names to be considered for interview under various informant programs. In addition when information is received concerning any individual on CI, this information is considered in light of that already in file and determination made as to whether case should be reopened for further investigation.

By letter 10/2/58 all offices were instructed to re-examine entire CI on individual case basis with disposition to be considered as (a) potential informant. (b) espionage subject, (c) SI subject, (d) retention in CI, (e) removal from CI. Program involves 17,000 individuals, 4397 of whom are in New York Division. Deadline of October 15, 1959, set for all offices and New York request for extension disapproved.

Minimum investigative steps were listed as (a) review file and references, (b) contact informants and sources, (c) determine residence and employment and make dissemination when employed in key facilities and by classified contractors, (d) resolve unexplained cessation of activity, (e) consider interview, (f) secure current description. Statistics to be maintained by all offices.

Reasons for program given as (a) CI presents excellent informant potential, (b) CP disorganized and subjects in CI most likely to be recontacted and recruited, (c) broader intelligence coverage essentil, (d) large group of followers of CP line may be potentially dangerous although not recorded members of CP, (e) speed return to SI of those qualified, (f) keep abreast of possible Soviet covert use of U.S. Nationals with Marxist background. Mr. states primary purpose is development of intelligence data concerning individuals and possible inclusion of their names on SI.

į,

New York inspection reveals that as of 4/10/59 the office had closed 1660 cases, had 1064 pending and 1673 remained to be opened. Thus, office has completed 38% of program in six months. Out of these cases no informants or potential informants have been developed, no espionage cases opened and no subjects have been placed on SI as result of program. Five subjects were found to be employed at key facilities or by classified contractors, four subjects required additional dissemination, 52 cases referred to other offices, 30 subjects found deceased, 26 subjects were not located and cases closed.

expended 2,735 agent workdays on program since inception until 3/31/59. These pending CI cases make up 29% of the total case load of 9 squads of the office. Staff Supervisor of section handling majority of cases advised that in event program discontinued agents involved could be used effectively on informant development, increased surveillance coverage of meetings, intensification of investigations leading toward development of productive anonymous sources. In addition 8 men could be released entirely. SAC and ASAC feel, however, that it is too early to judge program and it should be continued as systematic review to determine whereabouts and any recent subversive activity.

program but to supplement such. Basic function is to look into this reservoir of persons whose prior subversive inclinations are known so that we may be sure not to overlook any presently dangerous individuals included therein and to bring our knowledge concerning this group of individuals up to date. This program establishes a systematic basis to accomplish in a year's time what each office should be doing in this field. In spite of New York's progress, field-wide there have been 15 informants or potential informants developed, 30 subjects returned to SI, 50 found employed at key facilities and 13 in other sensitive employments.

as they are, which demonstrate the value of the program. It is based on the absolute necessity for the Bureau to have intelligence information in subversive field. Each case examined adds to store of knowledge of group of individuals, who next to SI subjects, present greatest potential threat to internal security. Reduction of program would reduce penetration of subversive field and cripple effectiveness in meeting threat.

Memo for Mr.

Re: Security Investigations of
Individuals -- Communist Index

Inspector feels that neither statistics nor intangible factors realized justify expenditure of manpower in New York Office. No informants, potential informants, or espionage cases have been developed. Verification of present addresses certainly doesn't appear to be worth while as a one-shot proposition and certainly isn't on a continuing basis as is the case with Security Index subjects. In fact, the Bureau's planning concerning individuals on the CI does not even provide for duplicate listing at Bureau or relocation sites in event of destruction of headquarters city of field offices in time of war.

When considering the results obtained from this program and the personnel required in New York, it is believed that these agents could be put to more productive use on other work, particularly identification of Communist Party members. This is particularly so when you consider that of an estimated current Communist Party membership of 2282 persons, the office has been able to positively identify only 1059 and tentatively identify 43 more. It is recognized that 2963 individuals are on the Security Index of the New York Office as result of present or past Communist Party activity and New York feels that they have a large percentage of the estimated current membership on the Security Index. Fact remains, however, that less than 50% of estimated Communist Party members have been positively identified as being current members and it is essential that this be done to strengthen case against them individually and to insure that we don't drop them from the Security Index after the prescribed period of time passes without actual evidence of membership or activity. Staff Supervisor advised he could effectively use men on operations which would effect identification of these Party members.

1-29-59

UVIDE

ASSISTANT DIRECTOR DOMESTIC INTELLIGENCE DIVISION:

The program initiated by Bureau letter to Albany dated 10-2-58, copies to all offices, directing re-examination of the cases on the Communist Index, was and is designed to intensify our knowledge of and penetration into the subversive intensify our knowledge of and penetration into the subversive (particularly communist) field. The present international (particularly communist) field. The present international fensions and the dissension within the ranks of Communist tensions and the dissension within the ranks of Communist Party leadership make it particularly necessary that at this party leadership make it particularly necessary that at this sympathies and activities of any individual having such sympathies and activities of any individual having such tendencies. Inasmuch as the Communist Index contains primarily tendencies. Inasmuch as the Communist Index contains primarily tendencies of individuals removed from the Security Index at the names of individuals removed from the Security Index at comparatively recent time, these individuals represent a group whose sympathies were definitely known to have been with communism in the recent past and whose present attitude must communism in the recent past and whose present attitude must be known if we are to perform our functions in the security field.

The program was, therefore, initiated and should be continued to further our discharge of our over-all responsibilities. It was not intended to supplant any existing program, but to supplement such programs. It performs several functions, the basic one of which is to lock into this reservoir of persons whose prior subversive inclinations are known so that we may be sure not to overlook any presently dangerous individuals included therein and to bring our knowledge concerning this group of individuals up to date.

As an adjunct of the development of this information, various other advantages can be and are being obtained. Even in the most unfavorable light cast on the New York Office's progress in this program, New York has purged its Communist progress in this program, New York has purged its Communist Index of 30 individuals determined to be no longer living and has forwarded information to other offices in 52 cases where the individuals have been found to be living elsewhere. New York individuals have been found to be living elsewhere. New York individuals have been found to be living elsewhere employment has also learned of key facility or other sensitive employment requiring additional dissemination of information by us in 9 instances. This, of course, is in addition to ascertaining

- 2617

ENCLOSURE

current residence and employment addresses and information concerning the subject of each case opened under the program. Therefore, even from a cold statistical viewpoint, which is not by any means a true measure of the purpose or progress of the program, results have been obtained in New York. It should also be noted that other offices have achieved more from a statistical viewpoint than New York has. Reports from the field of the progress of the program in the three-month period ending 4-15-59 indicate the following:

Fifteen security informants or PSIs developed.

Thirty subjects returned to the Security Index.

ų

Fifty subjects found to be employed at key facilities.

Thirteen subjects found to be employed in other sensitive employments.

New York has not attributed to this program any cases in which either PSIs are under development or any cases in which Communist Index subjects have been restored to the security index. It is to be noted, however, that in at least one instance authority to develop as a PSI one individual who previously was on the Security Index, was granted in 4-59. Further, a check of cases recently added to the Security Index from New York (not by any means embodying all such cases) has revealed at least five cases of individuals previously on the Security Index who had been cancelled therefrom and have been restored thereto since the beginning of this program. Even though these cases may not be directly attributable to the program as such, they indicate that there is a reservoir of individuals in the Communist Index who should be on the Security Index and thus, we must examine every such case to be sure that no potentially dangerous individuals are overlooked.

But it is not these statistics, impressive though they are, which demonstrate the value of the program. It is based on the absolute necessity for the Bureau to have intelligence information in the subversive field. Each case examined (and it is to be noted that complete investigations are not required in each case) adds to our store of knowledge of the group of

GOVERNMENT 261

individuals who, next to the Security Index subjects, presents the greatest potential threat to internal security. To the greatest potential threat to internal security. To the greatest potential threat to internal security in headquarters eliminate or cut down this program, whether in headquarters cities or in resident agencies, could have only one result and that the undesirable one-of-reducing our penetration of and that the undesirable one-of-reducing our effectiveness in the subversive field and crippling our effectiveness in meeting the threat to internal security.

program at this midway point would be a mistake. It
establishes a systematic basis to accomplish within a
establishes a systematic basis to accomplish within a
year's time what each office should be doing in this field,
and supplements our other investigative techniques to
assure thorough penetration into the subversive problem.

The program should be continued.

SUBJECT:

DELINQUENCY IN SECURITY INVESTIGATIONS (F

SYMOPSIS:

THON I PURIS - 70N'

Each month we follow the field closely on the status of , security work by analyzing the backlog of pending cases and delinquency, in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases as of may \$\overline{31}\$, \$\overline{1959}\$, is set forth below:

In May, there was a decrease in pending active matters in the entire field in the security classifications from 18,747 to 18,658. Delinquent matters increased from 1,927 to 1,995. The percentage of delinquent matters increased from 10.3% to 10.7%. Matters received during May in these categories decreased from 8,842 to 8,774. Matters closed increased from 8,880 to 8,911.

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOLDENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the June, 1959, administrative reports.

Memorandum for Mr. -- RE: -DELINQUENCY IN SECURITY INVESTIGATIONS

DETAILS:

The May, 1959, administrative reports from all offices reflect that the total pending active matters in classifications 65, 100 and 105 decreased from 18,747 to 18,658. Delinquent items increased from 1,927 to 1,995. The percentage of delinquent items increased from 10.3% to 10.7%. Matters received during May in these categories-decreased from 8,842 to 8,774. Matters closed increased from 8,880 to 8,911.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions for the last four months.

SUBJECT: SECURITY INVESTIGATIONS OF INDIVIDUALS - JEN 1-

SYNOPSIS:

New York airtel 5/15/59 advised an attorney for American Civil Liberties Union named contacted , New York Local of Socialist Workers Party (SWP), Trotskyite organization, and requested detailed information re FBI harassment and intimidation during contacts with various members and sympathizers of SWP. has been i touch with "other groups" seeking similar information and it appears he may be planning to launch an attack on the Bureau's interview programs.

Our interview programs are sound and we can fully justify interviewing subversives. However, criticism even though unjustified can led impetua to the smear compaign against the Bureau and the over-all attackagainst the Government security programs. We have examined these program order to determine whether we should take any steps at this time to curtail the number of interviews we are conducting. We are conducting interviews today under the following broad programs: General interview program under which we interview subjects of security cases and Security Index subjects, the Toplev and Security Informant, Programs under which conduct interviews for the purpose of developing informants, and the Communist Index Program which was inaugurated on 10/2/53 wherein a large number of interviews are being conducted under SAC authority.

All of these programs have been highly successful, not only in developing, informants but also in producing intelligence data concerning various subversive movements. In addition, they have had a disruptive effect on the communist movement. While these programs are essential and have been successful over the years and must be continued if we are to fully discharge our basic responsibilities in the internal security field it is believed we should take steps at this time to eliminate possible areas of criticism.

Kemorandum for Mr.
Le: SECURITY INVESTIGATIONS OF INDIVIDUALS

After considering our programs, we find we can add greater control and cut down on the number of interviews being conducted by requiring the field to secure prior Bureau authority before any interview is conducted under the Communist Index Program. This is a desirable step at this time since the individuals being interviewed under this program cannot be shown to be current members of a subversive organization. In addition, it is believed that we should apply the same controls to interviews with former members of the Independent Socialist League who are on the Security Index since many of these individuals have now joined the Socialist Party, which is not a subversive organization and which we have not investigated.

RECOLLENDATIONS:

1) If you agree, there is attached a proposed airtel to Albany, copies to all offices, instructing that interviews of Communist Index subjects and interviews of subjects who are included in the Security Index based on affiliation with the Independent Socialist League are to be conducted only with Eureau authority. Further, that interviews with security subjects are to be conducted in a most circumspect manner so as to avoid possible embarrassment to the Bureau.

MAN

2) It is recommended this memorandum be routed to Assistant
Director in order that he may consider contacting his sources in
the American Civil Liberties Union in an effort to obtain more detailed
information regarding in current inquiries relative to FBI interviews.
Pressure might also be brought to bear through these sources to curtail
or stop activities in this connection on behalf of the American
Civil Liberties Union.

Memorandum to Mr. RE: SECURITY INVESTIGATIONS OF INDIVIDUALS

DETAILS:

,3

New York Office by dirtel 5-15-59 captioned "NY Local Socialist Workers Party, Internal Security - STP" advised that a high echelon attorney for the American Civil Liberties Union named had recently of the New York Local of the been in contact with ' Socialist Forkers Party (SFP), a trotskyite organization. According to New York informant NY indicated that desired detailed information in regard to FBI harassment and intimidation during contacts with various members and sympathizers of the SMP in regard to their political beliefs. further stated that has been in touch with "other groups" seeking similar information. was particularly interested in any possible FBI intimidation or harassment which might result in an individual loss of employment.

It is believed that is well known to the Bureau.

is identical with

wh o

The current inquirtes being conducted by with the SWP officials and "other groups" may be preparatory to attacking the interview programs of the FBI.

our Interview Programs:

At the present time, we have several programs under which we interview subversives. Under general interview program we interview subjects of security cases and Security Index Subjects: We also conduct interviews with subversives under our Security Informant Programs (Toplev and Security Informant Program) for the purpose of developing informants. By Security Informant Program) for the purpose of developing informants. By letter to all field offices 10-2-58 we inaugurated the revised Communist Index Program wherein a large number of interviews are being conducted under SAC authority.

example, our two highest ranking informants in the Party today were developed through such interviews. The interview program is, of course, by far our through such interviews. The interview program is, of course, by far our major source of informants. We have obtained voluminous intelligence information through these interviews which have not only produced informants and resolved security investigations but also has had a informants and resolved security investigations but also has had a informants and resolved security investigations but also has had a informants and resolved security investigations but also has had a informants and resolved security investigations but also has had a informants and resolved security investigations but also has had a informants and resolved security investigations but also has had a informants and resolved security investigations but also has had a informants and resolved security investigations but also has had a informants and resolved security programs. For years the Farty and sympathetic distribution in connection therewith, particularly in view of possible areas of criticism in connection therewith, particularly in view of the recent criticism not only of our interviews but of security programs throughout the Government.

Memorandum to Mr. RE: SECURITY INVESTIGATIONS OF INDIVIDUALS

Instructions to the Field:

A proposed airtel to all offices is attached instructing that no interviews are to be conducted under the Communist Index Program and that no interviews are to be conducted with Security Index subjects included thereon because of membership in the Independent Socialist League without specific Eureau authority. This airtel further cautions the field to be most circumspect in handling any interview with a security subject.

Possible Curtailment of Activities:

From the information furnished in referenced New York airtel
5-15-59, may be conducting his inquiries on behalf of the
American Civil Liberties Union. It is possible that through FPI contacts
in the American Civil Liberties Union that more detailed information could
be obtained regarding a current inquiries and possibly some pressure
might be brought to bear to curtail or stop activities in this
regard. It is suggested that this memorandum be routed to Assistant
Director with instructions to contact his Bureau sources in the
American Civil Liberties Union and see what can be done in this connection.

AIRTEL

SAC, Albany REC- 58
Director, FBI

SECURITY INVESTIGATIONS OF INDIVIDUALS

Jects under the Communist Index Program and interviews of subjects who are included in the Security Index based on affiliation with the Independent Socialist League (ISL) affiliation with the Independent Socialist League (ISL) are to be conducted only with Bureau authority. Requests to interview such subjects in those instances deemed desirable interview such subjects in those instances with instructions should be submitted by letter in accordance with instructions contained in Section 87D of the Manual of Instructions.

Airtel to SAC, Albany
Res Security Investigations of Individuals

This action is deemed desirable by the Burcau at this time as a result of recent attacks by so-called left-wing groups on our interview programs and on over-all Government security programs. In view of such attacks, careful consideration must be given each case prior to authorizing an interview with a security subject in other instances in which permission to authorize interview is vested in the SIC. In addition, Agents conducting interviews with security subjects must be alert to insure that no justifiable allegations of harassment or intimidation can be raised by the subject.

Any instance which may result in potential embarrassment to the Bureau should be immediately brought to the Bureau's attention.

Office Memorandum UNITED STATES GOVERNMENT

DATE: May 28, 1959

Mr.

an attack on the Bureau's interview programs.

5-19-59 reflected that

SECURITY INVESTIGATIONS OF INDIVIDUALS

memorandum to Mr. , an attorney for the American Civil Liberties Union, had contacted the Socialist Workers Party (SWP) and requested detailed information regarding FBI harassment and intimidation during contacts with various members and sympathizers of the SWP. had been in touch with other Referenced memorandum reflected that groups seeking similar information. It appears he may be planning to launch

in confidence 5-27-59. I discussed this matter with of the ACLU assured me that he would immediately contact also stated that the FBI could be assured that nothing in New York. will ever appear in print regarding any of activities. He is of the opinion is acting independently and not at the instructions of the ACLU. that will attempt to get further facts and advise us accordingly.

ACTION:

It is suggested that this memorandum be forwarded to the Domestic Intelligence Division for information.

SUBVERSIVE COLTROL SECTION PROGRAM EVALUATION

Pelinquency in Security Investigations

Since 3-52 we have followed individual offices on a monthly basis concerning their delinquency in security investigations. This program initiated at that time because of an extremely heavy delinquency in security classifications 65, 100 and 165 throughout

The purpose of the program has been to stress the necessity of reducing delinquency in these categories and the necessity of maintaining these cases in a reasonably current status.

This program has resulted in a drastic reduction in delinquency in security classifications 65, 100 and 105 as illustrated by the fact that during the past three and one half years the highest over-all field delinquency recorded in these categories was on 1-31-56 when the percentage of delinquency stood at 13.7, at that time the pending active case load stood at 15,079.

During the past six months (12-58 through 5-59) the delinquency average throughout the field has stood at 11.2%. The maintenance of delinquency in these categories at this relatively low figure has resulted in the field being able to handle almost on a current basis matters received in these categories as evidenced by the fact that during the six-month period the field received 52,641 matters in security classifications 65, 100 and 105 and closed 52,400 such matters.

There has been a 31.15 increase in pending active matters in the above security classifications since 7-58 (14,295 in 7-58 as opposed to 18,747 in 5-59). However, delinquency throughout the field has increased only 1.1% (9.6% in 7-53 as opposed to 10.7% in 5-59)

<u>ACTION</u>:

ı

We will continue to afford this matter appropriate attention to insure that field delinquency in security classifications is kept ut a minimumi)

SUBVERSIVE CONTROL SECTION PROGRAM EVALUATION

SECURITY INVESTIGATIONS OF INDIVIDUALS

1. Origin

Presidential directives, the initial one being issued in 9-39 and since repeated on several occasions. These directives charge the Bureau with the responsibility for investigation of individuals in the internal security field. It is the collecting agency of the entire executive branch for subversive information and has the responsibility of seeing that such information is distributed to those Government agencies having a legitimate interest therein.

2. Purpose

The identification and investigation of individuals who, because of affiliation with subversive organizations, may present a potential threat to the internal security in the event of an emergency and the development of evidence of violations of Federal statutes on the part of these individuals. If, during the course of a security investigation, it is determined that a subject does pose a potential threat to the internal security, he is scheduled for apprehension under the Emergency Detention Program (EDP) by the Inclusion of his name in the Security Index.

3. Scone

Field wide.

4. Tie In With Other Programs

Closely related is the EDP, which deals with plans for the handling of individuals included in the Security Index in the event of an emergency. Also closely related are the various security programs of other Government agencies, such programs depending to a large extent on information developed by us and disseminated to such agencies.

UNRECORDED
6-16-59

Memorandum for Mr.
RE: SUBVERSIVE CONTROL SECTION
PROGRAM EVALUATION
SECURITY INVESTIGATIONS OF INDIVIDUALS

5. Case Load

4

Basically, these cases fall in security classifications 65, 100 and 105. As of 5-31-59 there were 18,658 pending active matters in these classifications throughout the field representing 22.9% of the entire pending active case load in all classifications throughout the field.

The Subversive Control Section is primarily responsible for investigations of individuals under the 100 classification although we do have cases on individuals under the 105 classification although we do have cases on individuals under the 105 classification such as affiliates of the Nationalist Farty of Puerto Rico and the such as affiliates of the Nationalist Farty of Puerto Rico and the such as a Nation of Islam. During the period January - May, 1959, there was a monthly average of 13,300 pending active matters in classification 100 throughout the field. For comparative purposes, during the same period of 1958 the field averaged 10,508 such pending active matters per month. Thus, during the first five months in 1959, the average percentage of increase in cases in 100 classification has been 26.6%.

6. Magnitude

As can be seen from the above figures, this program is major from the standpoint of manpower and costs and as such is referred to in budget material.

7. Past or Present Weaknesses

Close attention is given our entire orderations in this field in efforts to insure that we are fully discharging our responsibilities thereunder. We are continually striving to streamline our operations if such can be done without injuring our coverage of subversive activities.

8. Administrative Controls

The field is followed closely on its over-all delinquency in the three security classifications mentioned previously. This is handled on a monthly basis. In addition, we follow the field by tickler on pending matters in the field of which we have knowledge and we follow the field for submission of periodic reports in Security Index cases to insure that such are submitted when due.

6-16-5

Memorandum for Mr.

RE: SUBVERSIVE CONTROL SECTION

PROGRAM EVALUATION

SECURITY INVESTIGATIONS OF INDIVIDUALS

9. Adequacy and Currentness of Instructions

Instructions dealing with security investigations of individuals are contained in Section 87D of the Manual of Instructions and are in a current status.

10. Over-all Value

Determination of identities of individuals who should be apprehended in the event of an emergency in order to minimize possibilities of espionage, sabotage and subversion, at the time when this country would, in effect, be fighting for its very existence. Dissemination of information of intelligence value to other Government agencies concerning individuals and matters in which they have a legitimate interest. It is noted that essentially, all Government security programs are based upon information developed by the Bureau in this field. Budget purposes.

ACTION

Inta program will continue to receive close attention in this section.

SUBVERSIVE CONTROL SECTION PROGRAM EVALUATION

PERIODIC REPORTS PROGRAM

1. Origin

Amnual reports in Security Index (SI) cases have been required since completion of the Summary Report Program 7-14-54 (New York Office 5-1-56). In certain type cases periodic reports were required at specified intervals for many years prior to 1954; i.e. key figures, top functionaries.

2. Purnose

Fo insure that current information is available to the Bureau in report form in order to keep the Eureau, as well as the Department, advised of the status of Security Index cases and in order to discharge our responsibilities of dissemination to other interested agencies in the executive branch of the Government.

3. Scope

All offices participate in this program.

4. Tie In With Other Programs

Glosely related to the Frengency Petention Program, which deals with rions for the apprehension and detention of potentially dangerous individuals in time of an emergency.

5. Case Load

As of 6-10-59 there were 12,742 SI subjects, each requiring at least one report a year. Many of these cases require more frequent reports; namely (a) top functionaries, quarterly reports. There are 32 individuals considered as "top functionaries."

Memorandum for Mr. RE: SUBVERSIVE CONTROL SECTION PROGRAM EVALUATION PERIODIC REPORTS FROGRAM

They represent the highest degree of leadership in subversive organizations and their activities are constantly being followed. (b) Key figures - semiannual reports required in key figure cases presently numbering 643. These individuals represent leadership in subversive organizations on regional, district and state levels and we follow their activities closely. (c) Key facilities -384 SI subjects are employed in various key plants throughout the country designated by the Department of Dejense as key facilities. . Semiannual reports are required in these cases in order that we may keep the various branches of the Department of Defense fully informed of the activities of these individuals.

6. Magnitude

This is a major program as evidenced by the fact that in all SI cases investigations must be brought up to date and reports submitted at specified intervals on all SI subjects. Under this program there would be approximately 14,000 separate reports submitted smually. This does not include investigations and reports on individuals currently being nominated for the SI.

7. Administrative Controls

Each supervisor handling security matter cases utilizes a tickler system to insure that reports are submitted when due by the field. In addition, the field is required to advise the Bureau .twice yearly, 3-1 and 3-1, of the status of this program.

8. Adequacy and Currentness of Instructions

Instructions dealing with this program are found in Section 87D of the Manual of Instructions. This section of the manual is up to date.

9. Guer-all Value

Data dealing with this program is included in the budget material. In addition, this program enables us to thoroughly review the SI status of each individual subject on at least an annual basis. When information is developed clearly indicating that a

Memorandum for Mr.

RE: SUBVERSIVE CONTROL SECTION.

PROGRAM EVALUATION

PERIODIC REPORTS PROGRAM

eubject no longer should be scheduled for apprehension, prompt action is taken to remove his name from the SI. Conversely, if the investigation develops evidence indicating that the subject procents a potential threat to the internal security subject procents a potential threat to the internal security in time of emergency, his name is included in the SI.

Reports in these cases are widely disseminated to various executive departments. Essentially, every security program of other branches of the Government depends to a large extent on information made available to them by us.

ACTION:

This program will be followed closely and we will continue to require reports in SI cases in accordance with the schedule referred to herein.

SUBVERSIVE CONTROL SECTION PROGRAM EVALUATION

SECURITY INVESTIGATIONS OF INDIVIDUALS

l. Origin

presidential directives, the initial one being issued in 9-39 and since repeated on several occasions. These directives charge the Eureau with the responsibility for investigation of individuals in the internal security field. It is the collecting agency of the entire executive branch for subversive information and has the responsibility of seeing that such information is distributed to those Government agencies having a legitimate interest therein.

2. Purpose

because of affiliation with autoresive organizations, may present a potential threat to the internal security in the event of an emergency and the development of evidence of violations of Pederal statutes on the part of these individuals. If, during the course of a security investigation, it is determined that a subject does pose a potential threat to the internal security, he is scheduled for approhension under the Emergency Detention Program (EDP) by the inclusion of his name in the Security Index. — (- 6 %)

3. Scope

Pield wide.

4. Tie in With Other Programs

Closely related is the ETP, which deals with plans for the bandling of individuals included in the Security Index in the event of an emergency. Also closely related are the various security programs of other Government agencies, such programs depending to a large extent on information developed by us and disseminated to such agencies.

UNRECORDED 7-6-59

RE: SUBTRACTOR SECTION
PROGRAM EVALUATION
SECURITY INVESTIGATIONS OF INDIVIDUALS

5. Case Load

Basically, these cases fall in security classifications 65, 100 and 105. As of 5-31-59 there were 10,655 pending active matters in these classifications throughout the field representing 22.9% of the entire pending active case load in all classifications throughout the field.

The Subversive Control Section is primarily responsible for investigations of individuals under the 100 classification although we do have cases on individuals under the 105 classification such as affiliates of the Vationalist Party of Puerto Rico and the Nation of Islam. During the period January - May, 1959, there was a monthly average of 13,300 pending active matters in classification 100 throughout the field. For comparative purposes, during the same period of 1950 the field averaged 10,500 such pending active matters per month. Thus, during the first five months in 1959, the average percentage of increase in cases in 100 classification has been 26.48.

6. Magnitude

As can be seen from the above figures, this program is major from the standpoint of manpower and costs and as such is referred to in budget material.

7. Past or Present Westmanning

Close attention is given our entire operations in this field in efforts to insure that we are fully discharging our responsibilities thereunder. We are continually striving to streamline our operations if such can be done without injuring our coverage of subversive activities.

8. Administrative Controls

The field is followed closely on its over-all delinquency in the three security classifications mentioned previously. This is handled on a monthly basis. In addition, we follow the field by tickler on pending matters in the field of which we have knowledge and we follow the field for submission of periodic reports in Security Index cases to insure that such are submitted when due.

Memorandum for Mr.

RE: SUBVERSIVE CONTROL SECTION

PROGRAM EVALUATION

SECURITY INVESTIGATIONS OF INDIVIDUALS

a potential threat to the internal security in the event of an emergency. When such information is developed the name of the individual concerned is included in the Security Index.

we presently have included in the Security Index names of 12,70%. Fach recurity Index case is thoroughly re-evaluated at least once annually at the Eureau and in the field to insure that the cases are sound in every respect should it be necessary to invoke the top. If it is found that the subject's activities no longer justify the retention of his name in the Security Index immediate steps are taken to insure that his name is removed therefrom.

Recommendation for inclusion to the Security Index are finally passed on at the Section Chief level or higher. For example, in a complicated case the final decision is made by the Assistant Director.

In addition to the review of Security Index cases continually being made in the Subversive Control Section, the Department is continuing a review of a sampling of these cases and as of 6-15-59 the Security Index contained the names of 1,034 individuals whose cases had been reviewed by the Department and approved for the Security Index. This is a continuing review by the Department.

PRAUD AGAINST THE GOVERNMENT

continually about for evidence of violations of Pederal statutes.
One of the principal violations is of the Fraud Against the
Government Statute arising primarily from the subjects failure to
list membership in a subversive organization in executing such
documents as personnel security questionnaires. All such cases
received in the Section are handled on one desk for uniformity.
In these cases because of security angles the Department makes a
primary review of each to determine whether it presents possibilities
of successful presecution prior to referring the case to the
United States Attorney. Consequently, very careful and intensive
supervision, as well as investigation, is required. The principal
difficulty in connection with these cases has been the developing
of witnesses other than current active valuable informants who
gan testify to a subject's membership in a prescribed organization.

Memorandum for Mr.

RE: SUBVERSIVE CONTROL SECTION

PROGRAM EVALUATION

SECURITY INVESTIGATIONS OF INDIVITUALS

UNRECORDED 7-6-59

ETHAMPOPHI TO YTIJIBAJIAVA RCY ENGRO ONICULORI - POITANIMEZZIG.

Tecurity reports are disseminated to numerous interested agencies throughout the Executive Branch of the Government. By far the vast majority of such reports received are disseminated outside the Burssu. The Fasponaibility of such dissemination necessitates careful and thorough evaluation of each report to assure that it is absolutely accurate both in form and content.

Security programs of other branches of the executive department depend to a large extent on information disseminated by the PBI. Pollowing the Parker vs. Lester decision, holding the then existing Coast Guard screening program invalid and strongly implying that the subjects of security hearings should be confronted with the witnesses against them (10-55), there has been an increasing tendency on the part of primarily the United States Coast Guard and the intelligence agencies of the military to request of the Bureau the availability and identities of various sources, set forth in our reports, for utilization at administrative hearings in connection with security programs needled by these egencies.

Receipt of requests from such agencies for availability of witnesses are referred to the field with appropriate instructions. The final decision with respect to whether a witness can be made available to the requesting agency is in each instance made at the Bureau. In each case a thorough study is required to determine the possible effect on the Bureau's internal security responsibilities should the witness we made available for testimony. In addition, when advising these agencies of the availability of the potential witnesses, it is essential that we also advise such agencies of any information contained in our files reflecting upon the reliability or cradibility of such witnesses.

As an indication of the volume of such requests, it is noted that during the period 1-1-59 - t-22-59 other Government agencies requested identities and availability of 1,275 sources. Of this number 373 witnesses were made available.

ACTION

=

This program and various facets thereof will continue to receive close attention in this Section.

PROM

SUBJECT: CELINGUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases as of June 30, 1959, is set forth below:

In June, there was an increase in pending active matters in the entire field in the security classifications from 18,658 to 19,257. Delinquent matters decreased from 1,995 to 1,784. The percentage of delinquent matters decreased from 10.7% to 9.3%. Inters received during June in these categories increased from 8,774 to 9,647. Natters closed increased from 8,911 to,9,191.

Letters are being sent to the offices indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current status.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the July, 1959, administrative reports.

Wendrandum for Mr. ... SECURITY INVESTIGATIONS ... RE: CELIBRIENCY IN SECURITY INVESTIGATIONS

- TSTAILS:

The June, 1959, administrative reports from all offices reflect that the total penaing active matters in classifications 65, 100 and 105 increased from 18,658 to 19,257. Delinquent items decreased from 1,995 to 1.784. The percentage of delinquent items decreased from 10.7% to 9.3%. Watters received during June decreased from 10.7% to 9.3%. Watters received during June in these categories increased from 8,774 to 9,647. Watters closed in these categories increased from 8,774 to 9,647.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions for the last four months.

SUBJECT: INDUSTRIAL SECURITY-PROGRAM ----

The attached Washington Capital News Service release states that Representative Scherer of Chio, in a speech before the House of Representatives on July 8, charged that there are at least 2,000 potential substeurs now working in defense plants in this country. The news release states that Scherer told a reporter that his information had one in "off the record" statements from the Defense Department, which was supplied the data by security agencies of the Government. The Director inquired, "That do we know about this?"

This statement concerning 2,000 "saboteurs" came to our attention earlier this year when it appeared in Victor Riesel's January 19, 1959, column in the "New York Mirror" which reported the appearance of five Defense officials before the Eouse Committee on Un-American Activities. Riesel alleged that "top Pentagon counterintelligence and security officers" leaid there were 2,000 known saboteurs in industry and urged support of the "Defense Facilities Protection Act" which had been introduced in Congress to authorize exclusion of dangerous individuals from vital facilities. The committee hearing was considering communist penetration of communications facilities and the transcript was examined and reflected no Istatement whatever concerning 2,000 saboteurs or communists. , Director of In addition, we talked with Ur. the Security Programs Division, Office of the Secretary of Defense, who was one of the officials who had testified. said that none of the Defense officials had nade any statement which could have resulted in Riesel's allegation, but that this figure has reappeared periodically in the past and he has no idea of its source.

At the present time, 384 of the persons scheduled for apprehension in event of emergency are employed in "key facilities" considered vital by Defense. In each case, we have furnished the responsible military service with the results of our investigation, and me submit an investigative report concerning each, at simmonth intervals as long as they continue employment the a "key facility"

Memorandum from Mr. to Mr. RE: INDUSTRIAL SEQURITY PROGRAM

Under its screening program, Defense has been removing these persons from access to classified data but cannot remove them from employment in nonclassified areas of the same facilities. It is this screening program which Defense is trying to revise as a result of the Greene decision by the Supreme Court on June 29.

Although the allegation concerning 2,000 "potential saboteurs" may recur in future statements by members of Congress, there is no factual basis for it.

DATE: July 15, 1959

FROM

SUBJECT:

DISTRIBUTION OF COMMUNISTS

Reference is made to memoranium from Mr. ... to me dated 7/10/59 captioned "Industrial Security Program" (attached).

details of a statement previously made by you regarding the percentage of communists employed in basic industry, it is noted that in your appearance before the Senate Subcommittee on Appropriations regarding the 1951 appropriation estimates for the FBI on 2/3/50 you stated that 48 per cent of the membership of the Communist Party was in the basic industry of this country. This percentage represented an estimate based on the best available evidence, including statements of Party leaders concerning employment of communists.

In 10/53, we had the field conjuct a survey as to the employment of the then 21,739 individuals included in the Security Index whose subversive affiliations or associations were in communist or other Warxist-Leninist organizations or front groups. It was found at that time that 9,992 or approximately 46 per cent of such individuals were employed in the industrial, manufacturing and trade fields. The term "basic industry" was not utilized in this survey as that term is subject to varying interpretations as applied to specific industrial employments. In a time of war or emergency, it could possibly be arrived that any industry is a basic one.

For information, key facilities are facilities so designated by the Department of Defense and represent those lines of endeavor, including products and services, which are of vital importance to the national defense. There are currently approximately 3,400 facilities so listed by Defense.

ACTICNICE

The character of employment of This visuals presently included on the Security Index because of communist of other Karxist-Leninist affiliation.

το : Director, FBI

DATE: 7-8-59

FROM Legal

Legal Attaché, Madrid

SUBJECT:

PASSPORT DATA FURNISHED IN CONNECTION WITH PLACING STOPS WITH FOREIGN POLICE AGENCIES

As the Bureau is aware, quite a number of cases originating in the domestic field with leads for the different Legal Attaché Offices have to do with the placing of stops with cooperative foreign police agencies in order that the respective Legal Attaches will be notified of travel within the countries of their jurisdiction of U.S. security subjects. In this connection, the Legal Attaché Offices are usually furnished with copies of letterhead memoranda prepared by the interested domestic offices which set forth exact or approximate dates of travel and passport information.

It has been my experience in the three countries assigned to the Madrid Office, Spain, Portugal, and Morocco, that travelers entering and leaving the countries are required to fill out small forms, which forms eventually end up in the police files of the respective countries. These forms in general require an exact listing of the name of the traveler as it appears in the passport, the date and place of issuance of his passport, his nationality, and the number of his passport, in addition to some other general information. It is believed that with some exception similar requirements are in existence in most of the countries where Legal Attaches are located, the possible exceptions being the Western Hemisphere countries.

It has been noted that the letterhead memoranda prepared by the domestic offices on security subjects traveling abroad frequently list a name and several aliases for the subject, yet in the details of the memoranda where passport data is furnished, it is simply stated "Subject"was issued a passport, followed by details of date and place of issuance without specifying what name or alias was used in the passport. It is felt that the Bureau would appear more efficient to the foreign agencies requested to place stops against persons if it were possible to state the exact name utilized in the passport since this would avoid the necessity of placing stop cards in foreign agency files against all the names and aliases.

2 - Bureau
1 - Madrid
CDA: HD
(3)
Enem
Dates and an extra fraction and a contraction and a contraction

Re: Passport Data Furnished in Connection with Placing Stops with Foreign Police Agencies 7-8-59

passport was issued on a certain date as reflected by an examination of the individual's passport file. Since it is felt that the number of the passport must appear in the same file, it would be a rather simple matter to include this number in all cases. Having the number when placing the stop is of value in that it assists in identification where subjects with common names are involved.

A final and somewhat lesser consideration is the place of issuance of the passport. Some of the memoranda received are not clear as to whether the passport was issued at the Department of State in Washington or at one of the other passport issuing offices in the United States.

might desire to give consideration to issuing an instruction to the Field, either through an SAC Letter or by other means, to the effect that in preparing memoranda for dissemination to Legal Attache Offices for the purpose of placing stops with foreign police agencies, every effort be made to clearly state the exact name under which the subject's passport, and the number of the passport. This would be applicable, of course, in those cases where such information has already been obtained in the course of the investigation or is readily available to the domestic office, since it is not believed that the obtaining of these data should delay advice to the foreign office of the proposed travel if such travel is imminent. This is submitted for the Bureau's information and consideration.

SECURITY INDEX

alphabetical list of each office's Security Index in order that the Security Index cards maintained in the field may be checked and reconciled with Bureau_records.

There is attached a proposed letter to all field offices containing appropriate instructions regarding the handling of the list.

RECCLEENDATION:

It is recommended that the attached plastiplate of letter to all field offices be approved and forwarded.

Director, FBI (100-358086) 11/17

SECURITY INDEX

There is attached for each office an alphabetical list of its Security Index subjects (two copies for New York) prepared from the Bureau's Security Index as of July 15, 1959.

The attached list should be used to reconcile the Security Index in your office with the Security Index at the Seat of Government by checking the names on the list against the Security Index cards. Betailed instructions against the Security Index cards. Betailed instructions regarding the handling of this list are contained in Bureau letter to Albany, copies to all offices except Jacksonville captioned as above, dated January 17, 1956. Jacksonville chould refer to Bureau letter of April 21, 1958, in this patter.

SUBJECT: DELI

DELINQUENCY IN SECURITY INVESTIGATIONS

SYNOPSIS:

Each month we follow the field closely on the status of security work by analyzing the backlog of pending cases and delinquency in espionage, internal security, security matter and foreign intelligence cases in classifications 65, 100 and 105. Status of these cases of July 31, 1959, is set forth below.

In July, there was a decrease in pending active matters in the entire field in the security classifications from 19,257 to 18,306. Delinquent matters increased from 1,784 to 1,987. The percentage of delinquent matters increased from 9.3% to 10.9%. Matters received during July in these categories decreased from 9,647 to 8,457. Matters closed increased from 9,191 to 9,310.

Letters are being sent to the offices-indicated by asterisks on page four herein, commenting on their delinquency and pointing out the necessity of bringing their security cases to a current-status.

£.

RECOMMENDATION:

The field will continue to be followed closely regarding security delinquency and you will be advised of the results of the review of the August, 1959, administrative reports.

Memorandum for Mr. :
Re: DELINQUENCY IN SECURITY INVESTIGATIONS

DETAILS:

The July, 1959, administrative reports from all offices reflect that the total pending active matters in classifications 65, 100 and 105 decreased from 19,257 to 18,306. Delinquent items increased from 1,784 to 1,987. The percentage of delinquent items increased from 9.3% to 10.9%. Matters received during July in these categories decreased from 9,647 to 8,457. Matters closed increased from 9,191 to 9,310.

The following statistics reflect the status of pending work, including both pending active and pending inactive matters, and delinquency for all field divisions for the last four months.

Office Mem. and um: UNITED STATES GOVERNMENT

TO

DATE: July 30, 1959

PROM : 6 - 1 - 1 - 1 - 1 - 1

SUBJECT: COMMUNIST INDEX

The Communist Index (CI) was designed to represent a list of individuals who should, in the light of ever-changing conditions, be continually borne in mind with a view toward possible investigation under the Security Index (SI) program. Bulet of 10/2/58 issued instructions to the field to re-examine cases of individuals whose names are included in the CI, the re-examination to be conducted in equal monthly installments over a 12-month period.

Quarterly reports were required of the field in connection with this program and reports received from the field for the period from 4/15 to 7/15/59 have been reviewed and they show the following statistical results:

- 1) The names of 32 individuals have been added to the SI based on investigations conducted over this period. (During the previous quarter, the names of 30 individuals were so added.)
- 2) The field has under development eight security informants—or potential security informants. (For the period ending 4/15/59, this figure was 15.)
- 3) 66 individuals were found to be employed in key facilities and/or sensitive positions, requiring additional investigation or dissemination on our part. (For the period ending 4/15/59, this figure was 63.)

At the inception of the program, there were 17,783 names included in the CI. Reviews during the past nine months have resulted in the removal of 4,768 names, with the CI containing at present 13,015 names. These 4,88 individuals are either deceased, their names returned to the SI, or otherwise do not qualify for inclusion in the CI. Continuation of the program and consequent further elimination of unqualified individuals from the CI will assure that the CI contains the names only of individuals to be properly included therein.

2648

Memorandum for Mr. Re: COMMUNIST INDEX

In addition to the above statistical results, other advantages have resulted from the program. Cooperative interviews have been obtained in many instances. Each case opened results in the obtaining of, as a minimum, current residence and employment, thus bringing up to date our information concerning the subject's activities. For example, during this past quarter, the New York Office handled 1,369 CI cases. Of this number, it was found that 557 of the individuals had changed either residence or employment or both with an additional 46 individuals having moved to other field office territories, necessitating changes in office of origin.

OBSERVATIONS

The results being obtained from this program justify the time and effort necessarily involved in re-examination of the CI. This Index lists individuals who, next to SI subjects, present the greatest priential threat to the internal security.

ACTION:

This program will be followed and you will be advised of the final results obtained upon completion of the program on 10/15/59.
